CUSTOMER SUPPORT PROMPT LIBRARY & EVALUATION REPORT

Day 1 - Assignment 1 – Generative AI

---

1. Introduction

This assignment focuses on designing a prompt library for customer support using Generative AI concepts. The objective is to create structured prompt templates that can generate appropriate responses for common customer service scenarios.

The prompts are categorized into three key areas:

- Order Status Inquiries
- Troubleshooting Support
- Refund and Cancellation Requests

Each prompt is paired with a sample response and evaluated based on the following criteria:

- Clarity
- Accuracy
- Helpfulness

---

2. Prompt Library

2.1 Order Status Inquiries

Prompt 1: Order Status Request

Prompt:
You are a customer support assistant. A customer is asking about the current status of their order. Respond politely and request any required details.

Response:
Thank you for contacting us. Could you please provide your order ID so that I can check the latest status for you?

Evaluation:

- Clarity: 5/5 – The response is simple and easy to understand.
- Accuracy: 5/5 – It follows standard customer support practice.
- Helpfulness: 5/5 – It clearly guides the customer on the next step.

Prompt 2: Delayed Delivery

Prompt:
A customer reports that their order has been delayed. Respond with an apology and provide possible reasons.

Response:
We sincerely apologize for the delay in your order. This may be due to high demand or shipping constraints. Kindly share your order ID so we can provide you with an updated status.

Evaluation:

- Clarity: 5/5 – Clear and understandable response.
- Accuracy: 4/5 – Provides general reasons but lacks specific details.
- Helpfulness: 5/5 – Encourages further action for resolution.

Prompt 3: Delivery Date Inquiry

Prompt:
A customer wants to know the expected delivery date of their order.

Response:
Your order is expected to be delivered within 3 to 5 business days. You may also track your order using the tracking link provided.

Evaluation:

- Clarity: 5/5 – Clear and concise information.
- Accuracy: 5/5 – Reflects typical delivery timelines.
- Helpfulness: 4/5 – Could include more detailed tracking instructions.

Prompt 4: Tracking Issue

Prompt:
A customer is unable to track their order. Provide assistance.

Response:
Please check the tracking link sent to your email. If the link is not working, kindly share your order ID so we can assist you further.

Evaluation:

- Clarity: 5/5 – Easy to understand instructions.
- Accuracy: 5/5 – Correct troubleshooting step.

- Helpfulness: 5/5 – Provides a clear resolution path.

2.2 Troubleshooting Support

Prompt 5: Application Not Working

Prompt:
A customer reports that the application is not functioning properly. Provide troubleshooting steps.

Response:
Please try the following steps:

1. Restart the application
2. Check your internet connection
3. Update the application
4. Reinstall the application if necessary

Evaluation:

- Clarity: 5/5 – Steps are clearly listed.
- Accuracy: 4/5 – General troubleshooting steps.
- Helpfulness: 5/5 – Provides actionable guidance.

Prompt 6: Login Issue

Prompt:
A customer is unable to log into their account. Provide assistance.

Response:
Please click on the “Forgot Password” option and follow the instructions to reset your password.

Evaluation:

- Clarity: 5/5 – Very clear instruction.
- Accuracy: 5/5 – Standard solution.
- Helpfulness: 5/5 – Directly resolves the issue.

Prompt 7: Payment Failure

Prompt:
A customer reports that their payment has failed. Suggest possible solutions.

Response:
Please verify your payment details and ensure that sufficient balance is available. You may also try using an alternative payment method.

Evaluation:

- Clarity: 5/5 – Easy to understand.
- Accuracy: 5/5 – Correct and practical suggestions.
- Helpfulness: 5/5 – Provides multiple solutions.

Prompt 8: Website Not Loading

Prompt:
A customer reports that the website is not loading.

Response:
Please try refreshing the page, clearing your browser cache, or using a different browser.

Evaluation:

- Clarity: 5/5 – Simple and direct.
- Accuracy: 5/5 – Valid troubleshooting steps.
- Helpfulness: 4/5 – Could include network-related checks.

2.3 Refund and Cancellation Requests

Prompt 9: Damaged Product Refund

Prompt:
A customer received a damaged product and is requesting a refund.

Response:
We apologize for the inconvenience caused. Kindly share images of the damaged product along with your order ID so we can process your refund at the earliest.

Evaluation:

- Clarity: 5/5 – Clear and professional.
- Accuracy: 5/5 – Matches standard refund process.
- Helpfulness: 5/5 – Clearly explains next steps.

Prompt 10: Refund Status Inquiry

Prompt:
A customer asks about the status of their refund.

Response:
Your refund is currently being processed and will be credited within 5 to 7 business days.

Evaluation:

- Clarity: 5/5 – Straightforward response.
- Accuracy: 5/5 – Standard timeline.
- Helpfulness: 5/5 – Provides clear expectation.

Prompt 11: Refund Not Eligible

Prompt:
A customer is requesting a refund but is not eligible according to policy.

Response:
We understand your concern. However, your request does not fall within our refund policy guidelines. Please contact our support team for further assistance.

Evaluation:

- Clarity: 5/5 – Clearly communicated.
- Accuracy: 4/5 – Lacks detailed explanation of policy.
- Helpfulness: 4/5 – Offers limited alternatives.

---

3. Evaluation Summary

Prompt	Clarity	Accuracy	Helpfulness
P1	5	5	5
P2	5	4	5
P3	5	5	4
P4	5	5	5
P5	5	4	5
P6	5	5	5
P7	5	5	5
P8	5	5	4

Prompt	Clarity	Accuracy	Helpfulness
P9	5	5	5
P10	5	5	5
P11	5	4	4

---

4. Evaluation Report

4.1 Objective

The objective of this assignment is to design and evaluate prompt templates for customer support scenarios using Generative AI techniques.

4.2 Methodology

A total of eleven prompt templates were created across three categories: order status inquiries, troubleshooting support, and refund requests. Each response was manually generated and evaluated based on clarity, accuracy, and helpfulness.

4.3 Findings

- Structured prompts lead to more effective and relevant responses.
- Polite and professional tone improves clarity and customer satisfaction.
- Step-by-step instructions are particularly useful in troubleshooting scenarios.
- Some responses lack detailed explanations, slightly affecting accuracy.

4.4 Conclusion

This assignment demonstrates that well-designed prompts significantly enhance the quality of AI-generated responses in customer support systems. Proper prompt structuring ensures that responses are clear, accurate, and helpful to users.
